

YOUR PERSONAL AGENTS / OCTOBER 2026

Meet Omni. Your personal AI team.

Life admin is scattered across apps.
Omni brings the work together. Agents prepare. You approve.

■ Product prototype

Your apps are busy. You're still doing the work.

MONEY

Bills to chase.

Scattered accounts. Missed context.

TIME

Plans to untangle.

Conflicts, reminders and follow-ups.

MEETINGS

Notes into action.

The meeting ends. The admin starts.

The missing piece

Someone to do the work between your apps.

Agents do. You decide.

Money. Plans. Follow-ups.
One approval inbox.

Your agents / 3 decisions ready

01

Send the billing query?

Money agent · Bill checked. Email drafted.

Money

Approve

Reject

02

Move the dentist appointment?

Calendar agent · Thursday, 2pm found.

Calendar

Approve

Reject

03

Submit the school form?

Family agent · Details filled. Review ready.

Family

Reject

Human in the loop / Illustrative workflow; no external actions in this demo

Your next meeting. Bring Omni.

Notes. Decisions. Follow-ups.
Ready when the meeting ends.

Capture notes

Track action items

Draft follow-ups

Planned capability. Joining and note capture depend on platform support and participant consent.

Omni

Your personal assistant

CONCEPT

AFTER YOUR MEETING

Already organized.

Decisions

A clear summary of what was agreed.

Next steps

Tasks, owners and due dates.

Follow-up

A draft ready for your review.

You approve before anything is sent.

Approve / Reject

A personal team. A simple subscription.

PERSONAL

\$19 / month

Daily brief / Meeting notes
Tasks and approval inbox

HOUSEHOLD

\$39 / month

Everything in Personal
Shared plans and family workflows

Pricing hypothesis, not a live offer. Usage limits and margins to be validated in a pilot.

Nine tools. One team.

9 services. Each with a specific job.

CONTEXT	ACTION	INTERFACE
 Neon Postgres + AI Gateway	 Fly.io Sprites Agent sandboxes	 Assistant UI Agent chat
 Mastra Agents + observability	 Kernel Browser automation	 AgentMail Agent inboxes
 Exa Search + crawling	 Executor Tools + MCP gateway	 Anam.ai Voice + avatar

One person. Then millions.

Start with daily admin.
Earn trust. Expand across everyday life.

Agents act. You stay in charge.

Product vision, not current scale. Prototype today; integrations, demand and pricing remain to be validated.

Start

Prove weekly repeat use

Grow

Individuals to households

Proposed business model

Paid pilots, then scale
