

✦ PITCH · OCTOBER 2026

My personal AI Agent

One assistant for your money, your family's plans and your wellbeing —
so life admin stops living in your head.

PRODUCT DEMO

See Omni in action.

A walk through the control room: your day, your money, the approval inbox and Olivia — all in one place.

Life admin is scattered. You're still the glue.

Every household runs on a dozen apps, inboxes and portals. None of them talk to each other — so a person has to.

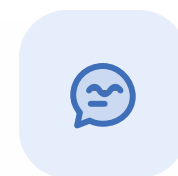

Bills slip through

Statements land in different inboxes and portals. Overcharges and due dates go unnoticed.

Schedules collide

School, work and appointments live in separate calendars. Conflicts surface too late.

The mental load piles up

Forms, follow-ups and reminders sit in your head instead of getting done.

Tools inform, not act

Dashboards and assistants tell you what's wrong. You still do the clicking.

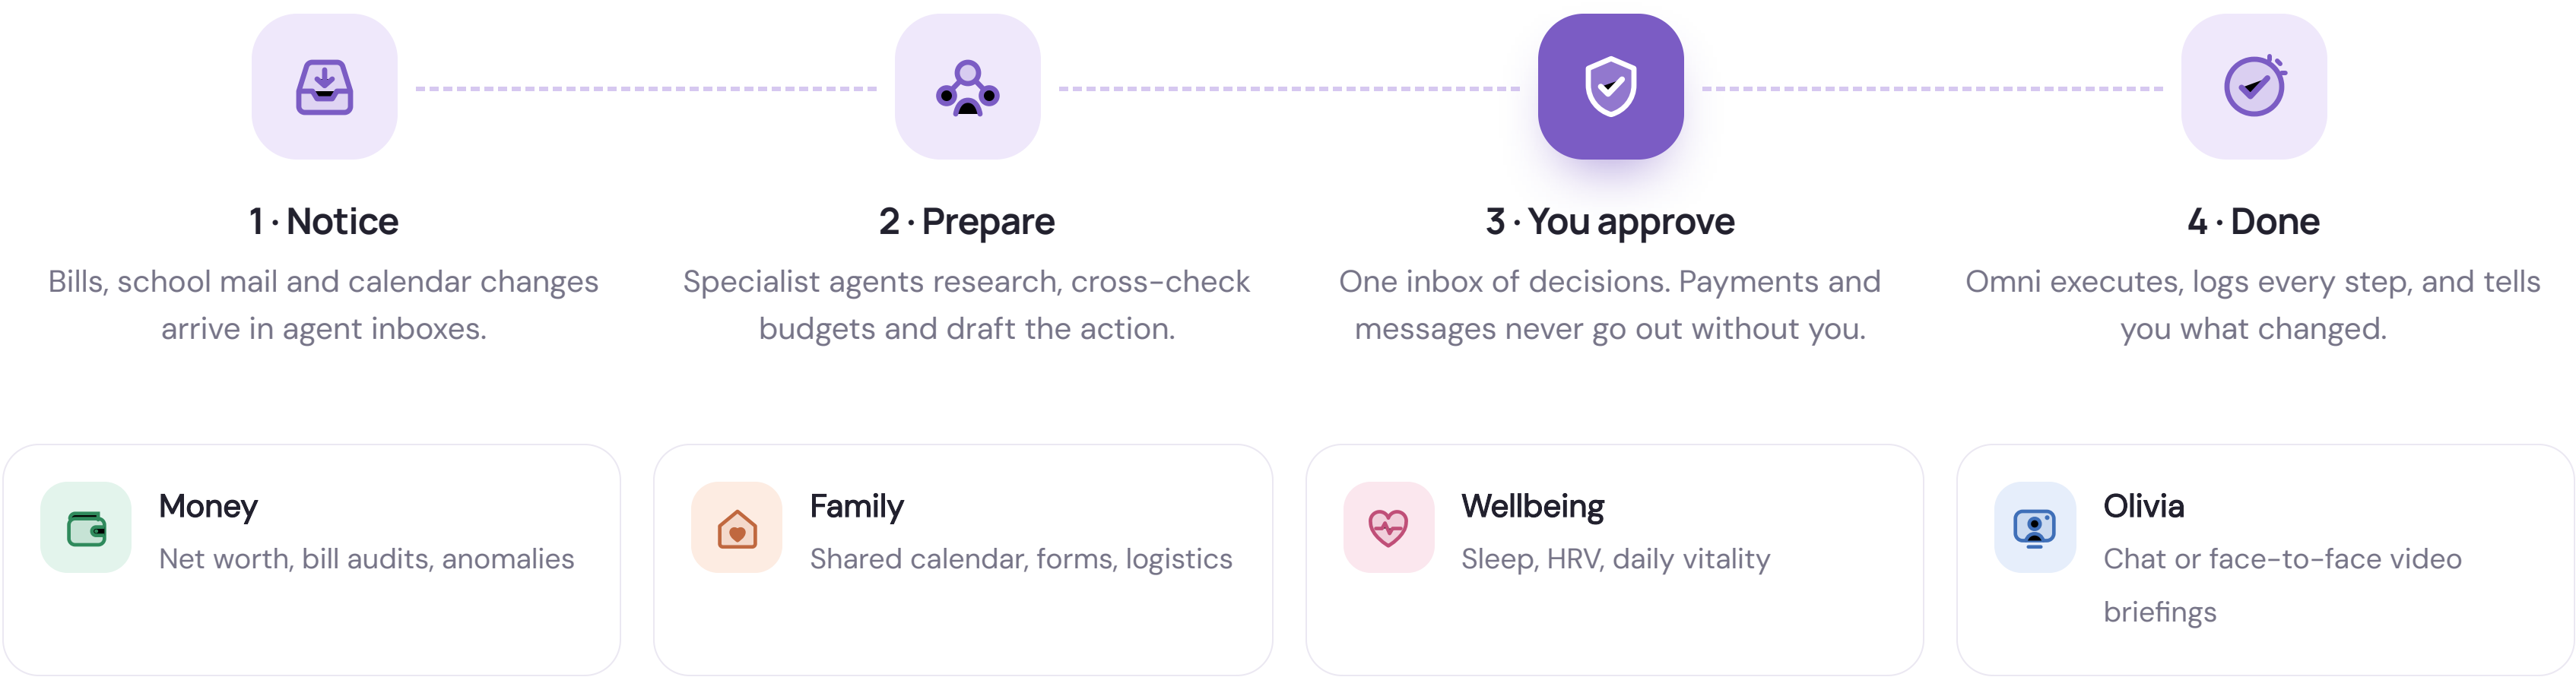

The missing piece is someone to do the work between your apps.

Not another dashboard. Not another reminder.

Agents do the work. You make the call.

Omni is a personal operating room: a team of specialist AI agents, led by Olivia, that watches your inboxes and accounts, prepares the next step, and waits for your yes.

Nine services. One coordinated team.

Each layer has one job. Every agent is scoped to the tools it needs, and every action is logged.

Experience

How you talk to Omni

Assistant UI

Chat, widgets, dashboard

Anam.ai

Real-time video avatar

AgentMail

An inbox for every agent

Intelligence

How agents think

Mastra

Agents, workflows, observability
